

InfraMind AI — Executive Capability Statement

AI-Enabled EPC Operational Intelligence

!Blue IM Monogram

Executive Summary

InfraMind AI delivers practitioner-built AI operational intelligence systems for EPC megaprojects. Founded by **Samanta Nayak** — a 20+ year EPC infrastructure veteran and ICC Arbitration Fact Witness — InfraMind AI encodes real-world contract administration expertise into deployed AI-augmented systems. **Mission:** Eliminate the information lag that transforms manageable risks into costly disputes on infrastructure megaprojects.

The Rarest Combination

Dimension		Capability
Experience	20+ years EPC infrastructure	
Domain	FIDIC contract administration, claims & dispute resolution	
Technical	AI engineering, full-stack development	
Credibility	ICC Arbitration Fact Witness	
Deployment	Live on MAHSR T-3 (INR 3,142 Crore FIDIC Yellow Book)	

Ready to explore how operational intelligence can reduce contractual exposure on your project?

Product Portfolio

Operational Intelligence Products

Product	Category	Status	Key Metric
MAHSR T-3 Digital Twin	Operational Intelligence	Production	75% MIS effort reduction
NCR Tracker	Quality Intelligence	Production	40%+ faster closure
Contract Forensics	Contract Intelligence	Demonstrable	Weeks → Hours review
OCR Intelligence	Document Intelligence	Demonstrable	98%+ accuracy

Four-Layer Architecture

!Four-Layer Architecture

Layer	Function	Products
Layer 1: Data Capture	Document digitization & OCR	OCR Intelligence
Layer 2: Intelligence	Operational intelligence & analytics	Digital Twin, NCR Tracker
Layer 3: Decision	AI-powered contract analysis	Contract Forensics
Layer 4: Evidence	Structured documentation aligned with contractual and evidentiary requirements	All Products

MAHSR T-3 Deployment

Mumbai-Ahmedabad High-Speed Rail — T-3 Track Package

Metric	Value
--------	-------

Contract Value	INR 3,142 Crore
Contract Form	FIDIC Yellow Book
Scope	115.877 km (Vadodara to Sabarmati)
Oversight	JICA / JICC
Employer	NHSRCL
Contractor	Larsen & Toubro Limited

Governance Structure: JICA (Funding Agency) → NHSRCL (Employer) → JICC (Engineer / PMC) → L&T Limited (Contractor)

Representative Project Experience

Project	Role	Scope
MAHSR T-3 Track Package	Manager — Contracts & Claims, Larsen & Toubro Limited	FIDIC Yellow Book contract administration for 115.877 km of high-speed rail track construction under JICA/JICC oversight
ICC Arbitration	Fact Witness	Dispute resolution and expert testimony in international arbitration proceedings
AI Product Deployment	Founder, InfraMind AI	Operational deployment of Digital Twin and NCR Tracker on live EPC megaprojects

Services

EPC Intelligence Consulting

Service	Target Client	Duration
AI Strategy Consulting	EPC contractors seeking AI adoption	60-90 min
Digital Twin Architecture	EPC contractors on linear infrastructure	90 min

Contract Intelligence Design	Legal counsel and contracts managers	60 min (NDA)
Expert Advisory	Legal counsel and expert witnesses	30-60 min (NDA)
Planning, Scheduling & Programme Controls	EPC contractors and project controls teams	60 min
Delay Analysis, EOT & Claims Support	Contract managers, legal counsel, project directors	60 min (NDA)

Service Packages

Package	Services	Target
EPC Intelligence Starter	AI Strategy + Digital Twin Architecture	Mid-size EPC contractors
Megaproject Intelligence Suite	All consulting services	Large EPC contractors, JVs
Dispute Resolution Support	Expert Advisory + Contract Intelligence + Delay Analysis	Legal counsel, expert witnesses
Programme Controls Package	Planning & Scheduling + Delay Analysis & EOT	Project controls teams

AI Capability Matrix

Technology	Application	Status
Large Language Models (LLM)	Contract clause extraction, report generation	Production
OCR with AI Enhancement	Document digitization, handwritten recognition	Production
Rule-Based Automation	FIDIC notice monitoring, NCR escalation	Production
Pattern Detection Analytics	Systemic quality analysis, claim patterns	Pilot
Prompt Engineering	Domain-calibrated FIDIC/EPC workflows	Production

Target Stakeholders

Stakeholder	Value Proposition
EPC Contractors	Operational intelligence, reduced contractual exposure
PMCs	Real-time project visibility, automated quality tracking
Infrastructure Owners	Structured records, dispute prevention
Government Authorities	Compliance dashboards, audit-ready documentation
Rail Projects	Chainage-referenced corridor intelligence
Arbitration Support	Prepared in a manner suitable for supporting dispute avoidance and dispute resolution processes; expert testimony

Credentials

- **20+ Years EPC Infrastructure Experience** — Manager — Contracts & Claims, Larsen & Toubro Limited
- **ICC Arbitration Fact Witness** — Dispute resolution and expert testimony
- **AI Generalist Certification** — Outskill — Applied AI for business
- **AIG Community Champion 2025** — AI community leadership

Vision

"To make operational intelligence the default state of EPC megaproject administration — eliminating the information lag that transforms manageable risks into costly disputes."
