Unifier Sync

Automate Oracle Primavera Unifier Correspondence Extraction

Batch download, auto-organize, and index contractual correspondence — from 3–4 hours to 15 minutes.

The Problem

Every contracts manager on an Oracle Unifier project knows this pain:

Manual Process	Impact
50 records × manual clicks	3–4 hours per batch
Manual filing & renaming	Error-prone organization
Incomplete verification	Risk of missed documents
No chronological archive	Claims evidence gaps

The Solution

Capability	Description
------------	-------------

InfraMind EPC	Batch Processing	50 records per run — one command
	Auto-Organization	Date/COR/reference indexed folders
	COR Extraction	Properties panel scraping for accurate references
	Download Polling	`.crdownload` timeout handling
	Session Isolation	Unique Chrome profiles per execution

Business Outcomes

Metric	Before	After	Improvement
-----	:-----:	:-----:	:-----:
Time per batch	3–4 hours	15 minutes	85–90%
Organization	Manual filing	Automated	100% consistent
Completeness	Human error risk	Systematic	100%
Claims readiness	2–3 days	Immediate	95% faster
Arbitration evidence	Ad-hoc	Forensic-grade	✓

Why InfraMind EPC

#	Differentiator	Evidence
